## PROVINCIAL CHAMPIONSHIP JUVENILE BASEBALL TOMORROW

Two game will be played on the Blairmore athletic grounds tomorrow afternoon to decide the provincial juvenile championship. The competing teams are Calgary Juvenile Vics and Blairmore Tuxis.

The first game will start at 2 o'clock sharp, and the second game at 5.30. If necessary, a third game will be played on Saturday.

We understand that local business men have decided to close their stores from 2 p.m. to permit their employees to see the games.

## BLAIRMORE GOLF CLUB

The annual competition for the Charbonnier Cup, scratch, was played on the 24th inst. with the following result:

M. G. Rhynas, with 79, was the winner of the Cup and Moreno. Other scores: G. L. Stevens 82, G. A. Passmore 84, A. J. Kelly, L. P. Robert and E. Barrett, 85.

A handicap competition, 18 holes stroke, also took place with the following results:

1, M. G. Rhynas 79-14—65; 2, D. C. Mackenzie 71-4—67, and J. B. Wilson 76-7—67. Other scores: V. J. Hilling 90-22—68, C. Emmerson 91-23—68, F. Chivers 105-36—69, D. Martin 89-20—69, G. A. Passmore 84-14—70, G. L. Stevens 82-12—70, W. Byrd 88-18—70, A. J. Kelly 85-15—70, L. P. Robert 85-15—70, H. M. Bennett 89-16—73, W. W. Scott 91-16—75, E. Barrett 85-10—75, F. J. Smith 104-28—76, J. H. Farmer 95-18—77, L. L. Morgan 107-28—79.

The Gladys Attrice dancers appeared at the Orpheum Theatre last night.

## WILL PLACE GUARD RAILS ON RETAINING WALLS

The regular meeting of the town council on Monday night was attended by Councillors J. E. Gillis, J. A. McDonald, W. Patterson, Evan Morgan and J. Montabetti, and Secretary Wright. In the absence of the mayor, Deputy-Mayor-Gillis presided.

The minutes of last regular meeting and of a special meeting held on August 22nd were approved as read and a large batch of accounts were presented for consideration. These included the following: H. J. Benson, \$30.50; S. Crawford, \$12.00; B. Serardi, \$40.00; L. Malaro, \$22.00; F. Leary, \$14.00; T. Williams, \$12.00; J. Davis, \$24.00; J. Stafford, \$36.00; R. Crawford, \$48.00; J. Spence, \$150.00; W. Lorne, \$172.50; F. Wright, \$160; L. H. Putnam (retaining fee half year to August 14th) \$150.00; Canadian General Electric Co., \$158.72; Northern Electric Co., \$165.91; Alberta Government Telephones (for poles), \$38.50; H. Garrison, \$21.00; George Patterson, \$20.00; E. Hinds, \$9.00; Western Municipal News, \$12.25; Alex. Morency, \$12.10; Department of Public Health (guaranteed hospital fee for W. Turner), \$79.50; Blairmore Iron Works (for service boxes, waterworks), \$252.00; Remington Typewriter Co., \$15.00; Petty Cash, \$18.29; S. Crawford, \$12.00. These were ordered paid if found correct.

A report from the fire chief was received and filed.

Communication from the West Canadian Collieries, asking that the Town consider taking over the street lighting in West Blairmore. Secretary was instructed to advise that the Town was prepared to discuss a proposition to take over the entire municipal lighting system of the west end, both street and domestic. In this connection, the street lighting in West Blairmore has always been maintained by the coal company over a line erected independently since the time the east end was being supplied by the Rocky Mountain Cement Company. Some of the service lines extend beyond the limits of the present municipality, but in all probability would be included in the proposed inclusion into the town limits of all that portion of the town now known as New Lidle. Domestic light and power service in the west end has also been under the direct supervision of the West Canadian Collieries.

A communication was received from Solicitor Putnam in re the matter of licensing beer parlors and beer warehouses. Mr. Putnam suggested that as few, if any, towns or cities in the province have up to the present undertaken to enforce such a regulation, that the matter be taken up at the next regular convention of the Union of Alberta Municipalities to be held in October.

The matter of purchase of a street sprinkler was left in the hands of Councillor Morgan.

Application of the Crows' Nest Pass Motors for permission to erect a water and air standpipe in front of the garage, was read and upon motion, permission was granted.

Councillor Montabetti gave notice that at the next regular meeting of the council he would introduce a by-law to amend By-law No. 4, respecting licenses.

An encouraging report of the financial condition of the department of public utilities was read by the Secretary, showing a surplus of revenue over expenditure in both light and water departments.

The question of placing guard rails along the Ninth Avenue and Victoria Street central retaining walls came up for discussion and the council decided to place a permanent pipe rail along the Ninth Avenue wall and a temporary board railing along the Victoria Street wall from Capt. W. A. Beebe's premises to near the Union Bank.

## UNION CHURCH ANNUAL CONGREGATIONAL MEETING

The annual meeting of the congregation of the Union Church was held on Sunday last, following the regular service.

The chair was occupied by Mr. Allan Hamilton, president of the Old Boys' Association and a member of the Board of Stewards.

Reports of the various departments of the church were submitted and approved, showing all departments, including the Sunday school, to be in a very healthy condition.

A vote of thanks was extended to the several members of the congregation, who during the absence of the pastor, Rev. Mr. Young, gave the in-Lee.

terior of the church a thorough cleaning and re-decoration, for which no accounts had been submitted to the church board. A vote of thanks was also tendered the various auxiliaries whose activities were in a large measure responsible for the success of the past year.

Mr. Thomas was elected member of the Session, to fill the vacancy caused through the death of Mr. F. M. Pinkney, and the Board of Stewards were re-elected for another year.

J. P. O'Neill, district manager for P. Burns & Co., leaves today for a visit to his old home in Ontario. Mr. O'Neill will be away about three weeks and will be relieved by Mr. pastor, Rev. Mr. Young, gave the in-Lee.

# TANLAC MEETS TEST FOR OVER 3 YEARS

"The more I know about Tanlac the more I feel like praising it," says Mrs. Samuel Shelly, 66 Wood St., Toronto, Ont., Canada. "I always take Tanlac when I begin to feel run-down and I have met my health needs for the past three years."

"Four years before I learned of Tanlac I was in such an awful run-down condition that at times I would get so weak and nervous I couldn't do my house work. I was down to almost a skeleton and still losing weight all the time. Headaches nearly drove me

mad and I had a sickly, sallow complexion."

"Tanic has increased my weight 14 pounds, and has given me a wonderful appetite. My nerves are steady. I sleep well and have health and strength that makes life a pleasure."

"Tanic is for sale by all good drug stores. Accept no substitute. Over 10 million bottles sold."

Tanic Vegetable Pills for Constipation; made and recommended by the manufacturers of Tanlac.

## WORLD HAPPENINGS BRIEFLY TOLD

Prof. J. C. Phipps, of University College, London, England, has compiled a chart of human experiences.

Perry Sims, a Canadian engineer, has been appointed assistant chief mechanical engineer of the New Zealand Government Railways.

The importation of all cattle, sheep, pigs and goats into the Isle of Wight is prohibited owing to foot-and-mouth disease.

Viccount Grey of Fallodon, former Secretary of State for Foreign Affairs in the Asquith Government, has retired from the Liberal leadership in the House of Lords for personal reasons.

Mrs. Emily Stinson Nelson, widow of Hon. Hugh Nelson, former Lieutenant-Governor of British Columbia, died at the Westminster Private Hotel, Toronto, where she had been staying.

According to official statistics just issued the value of the alcoholic beverages consumed in Norway in 1928 aggregated \$10,770,000. This is at the rate of about \$16 for each inhabitant.

Countess Gladys, formerly Miss Eleanor Patterson, of Washington, D.C., America's most noted woman big game hunter, has gone on a private hunting expedition into the Canadian Rockies.

A 13-year-old boy is one of the leaders of the Communist party at Gera, in Central Germany. His fluency of speech and commanding manner on the platform attracts large crowds to his meetings.

Prince Arthur of Connaught is spoken of as the next Viceroy of India, it was learned in London. Lord Reading, the present incumbent, will probably finish his term of office, twelve months of which have not expired.

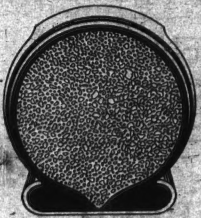

The freight steamer Torihau Van, from Toronto and other ports on the Great Lakes arrived at Vancouver, B.C., with a full cargo of Ontario manufactured goods. The vessel was two months on the voyage.

Establishing New Nursing Outposts Two new nursing outposts of the Saskatchewan division of the Canadian Red Cross will be established through a gift of \$720 made to the provincial body by the Overseas Nursing Association. The gift comes through Lady Grey, widow of Earl Grey, former Governor-General.

Dees' wages beat the air at the rate of 190 strokes a second.

## B. C. Apples

Expected That There Will Be a Sixty Per Cent. Crop This Year  
(By J. A. Alter, Alkan)

Kelowna, B.C.—There is a decided opinion here that the apple crop will be a 60 per cent. crop, due largely to unfavorable weather conditions. There is no getting away from the fact that fruit growing in this valley can only be assured from year to year by irrigation, just as is the case in the States to the south. The fruit farms which have water this season are promised a very good yield; but otherwise the outlook is not bright.

There remains plenty of land along the hills below the water line, and the valley's waiting to be taken up and used. The Chinamen are working some of the least desirable land and raising a lot of vegetables. Up to the present time there have been 80 can of vegetables shipped out of the valley this season, and most of that product is from the Orientals land.

The drought this season gave invitation to grasshoppers and they are plenty on some land. The provincial fruit branch has ready for use to all who will take it to their own land a preparation of bran and sawdust with arsenic flavored with molasses and vanilla which proves that the hopper likes the rum smelt and the fall jar. The insect is effective and has saved many acres of tomatoes and small fruit and vegetables.

For sometime Jonathan growers were troubled with early decay in this variety. Careful inquiry and research on the part of the Pedernis Fruit Branch led to the sure knowledge that the trouble had been caused by late picking after the fruit had passed picking maturity. It was found beyond question that where the Jonathan trees were picked early they had the keeping quality centered and proved good right through September to December. Therefore, it will in future be safe for Jonathan lovers to buy their favorite apple.

The growers are seeing it is advisable to concentrate on a limited number of varieties in order that they may be able to supply demand in carlots as ordered. Formerly growers set out a wide number of varieties not foreseeing the situation as it is now developed. Along with this effort at concentration there will be attention paid to giving out information on the season for the ten varieties which have been adopted. And while there is the standard deviation to make that it is always time to set an apple, the apple men will feel that it is just as much of a mistake to eat an apple at the wrong time or season as it is to try to mutilate an unripe peach.

The ten varieties are the ones when they are at their best follow: The Early Dutchess, Wealthy, Sept. to Nov.; McIntosh, Oct. to Jan.; Jonathan, Sept. to Dec.; Delicious, Nov. to Jan.; Grimes Golden, Nov. to Jan.; Wagner, Nov. to Dec.; Splendid, Nov. to Jan.; Yellow Newtons, Jan. to April; Winesap, Jan. to April. The Canadian Pacific Railway gives exclusive service to the Okanagan Valley and is quite equal to all demands for traffic. During the past year two important concessions have been made to shippers. The first, and an important one, is that of protection of fruit against frost. This form of insurance enables the shipper to go right on using freight cars, so long as the weather is reasonably moderate, after which shipments have to be made in refrigerated cars. The other concession, not less valuable, is that cars of fruit by express may be opened for delivery twice en route, to meet the shipping point. The effect of these arrangements is to facilitate movement of the crop promptly and hold down the cost of transportation, which in turn affects the consumer's price.

The average net price received by growers for apples last season was about 40 cents per box, or some varieties as high as 70 cents was paid the growers, but plenty of apples did bring more than 30 cents. The average cost for packing and shipping is found to be 20 cents, which includes administration charges. This question is being made the subject of a special inquiry by Major Duncan for the Federal Department of Labor.

Peruvian Consulate At Vancouver  
Peru is the last country to establish a consulate in Vancouver. C. R. Davis, a citizen of that country, who arrived there a few days ago, is accredited as consul for Peru in Vancouver and has opened an office on Hastings Street. He states it is his intention to promote trade between his country and this port.

True Is Growing Fast  
Canada's trade is growing at a faster rate than ever before, despite the war, until she now buys from 77 and sells to 100 countries. Her total foreign trade climbed in the calendar year of 1925 to \$1,818,244,789, an increase of 16 per cent. in a year. Her interchange of commerce increased 70 per cent. between 1913-14.

Minard's Liniment for Rheumatism

## You need not hide skin defects—now

Millions know this simple way to avoid them—to keep skin lovely, youthful

Do not make the mistake of attempting to cover or hide skin defects. It can never succeed. And there is a better way—which millions know:

This simple method to avoid them—to keep the youthful radiance and clearness of schoolgirl complexion.

For a week do this

Cleanse the skin regularly, au-

temper to cover or hide skin defects. It can never succeed.

And there is a better way—which millions know:

This simple method to avoid them—to keep the youthful radiance and clearness of schoolgirl complexion.

thorities say, to keep your complexion lovely, radiant, youthful. But beware of harsh cleansing methods. They injure skin.

Wash thoroughly with Palmolive Soap—each night before retiring. Rub the creamy, foamy lather well into the tiny pores. Rinse—and repeat the washing. Then rinse again.

Then—if skin is dry—apply a little cold cream. That is all. Skin so cared for is not injured by cosmetics, by wind and sun, or by dirt.

Yale and efficiency

Organize Selling Of Pure Seed

Substantial Quantity For Export Each Year Is Assured

The pure seed growers of Saskatchewan are making preparations for organized marketing of their high quality products under the standards and regulations of the Canadian Seed Growers' Association. Whilst the marketing association is only getting under way a substantial quantity for export each year is already assured among the leading varieties and kinds of seed to be handled being: Marquis, wheat, Banner and Victory oats, O.A.C. No. 21 and Canadian Thorpe barley, Promiss, fast, Poudre rye, Arctic sweet clover, Orin, alfalfa, Superior bromegrass, and Western rye grass.

Miller's Worm Powders were devised to promptly relieve children who suffer from the ravages of worms. It is a simple preparation to destroy stomachic and intestinal worms without shock or injury to the most sensitive system. They act thoroughly and painlessly, and though in some cases they may cause vomiting, that is an indication of their powerful action and not of any nauseating property.

British Building Up Forests

British Forestry Committee Has Already Started Tree Planting

The British Forestry Committee is planning a forest station development in a huge area of East Anglia with the idea of creating the largest forest in Great Britain. Tree planting has already begun.

The area under development is a vast sandy wasteland. The plan includes the erection of workers' huts for one hundred families.

It is expected that the development will be profitable not only in the production of timber, but in the increased fertility of this surrounding land.

Stop the Cough—Coughing is caused by irritation in the respiratory passages and is the effort to dislodge obstructions that come from inflammation of the mucous membrane. Treatment with Dr. Thomas' Electric Oil will allay the inflammation and so cure the cough which will usually stop. Try it and you will be satisfied.

Not So Rotten In Denmark  
Denmark, with 3,500,000 inhabitants, averages three murders a year. Chicago, with about 3,000,000 people, averages more than three murders a year.

It was presented to him by W. Roy McNamee, President of the Stromberg Carlson Telephone Manufacturing Company, as a token of appreciation and goodwill from the radio land of America.

The set, which is a five-tube Neutrodyne, is mounted in a console of Alden Brown Mahogany with everything self-contained. All its metal parts are gold-plated. The set was delivered to the Berengaria and taken across the Atlantic aboard that ship on its eastward passage, so that presentation could be made immediately after the Prince boarded the liner in Southampton.

Donates Plane to Japan  
Captain Georges Pelletier D'Olvy, the French aviator who recently completed a flight from Paris to Tokyo, has donated the airplane in which he made the last leg of his journey from Shanghai to the Japanese army.

Probably most people think you are as foolish as you think they are.

Men don't get hair, because the knight of olden days believed in it.

The simple, correct way

You cannot find a more effective beauty treatment. Because Palmolive Soap is blended of rare palm and olive oils—famous for mild but thorough cleansing qualities since the days of Cleopatra. And it is inexpensive. Enjoy it for the bath also.

But be sure you get Palmolive—which is never sold unwrapped. All dealers have it. Get some and follow this simple method for one week. Results will delight you, even in that short time.

Radio Set For Prince

Token of Appreciation From Radio Fans of America

When the Prince of Wales stepped aboard the Gunard liner Berengaria on August 23, for his trip overseas, he received the most magnificent radio set ever constructed in the United States.

It was presented to him by W. Roy McNamee, President of the Stromberg Carlson Telephone Manufacturing Company, as a token of appreciation and goodwill from the radio land of America.

The set, which is a five-tube Neutrodyne, is mounted in a console of Alden Brown Mahogany with everything self-contained. All its metal parts are gold-plated. The set was delivered to the Berengaria and taken across the Atlantic aboard that ship on its eastward passage, so that presentation could be made immediately after the Prince boarded the liner in Southampton.

### RESPONSIBILITY FOR STRIKE IS FIXED

From the official statement, made on Friday, by Hon. James Murdock, minister of labor, it is clearly evident that the onus for the continuance of the strike in District 15, U. M. W. of A., rests entirely upon the officials of that organization. It is not the men themselves who are blamed by Mr. Murdock, but those who have been appointed by the miners to direct their affairs. The responsibility resting upon these officials is very great. The strike has already lasted four months and has cost the miners a huge sum in wages, has cost the operators another huge sum, and has cost the province a great deal more; for the market that had been built up in Manitoba and the East after laborious and expensive efforts, has been swept away, with American coal replacing the product formerly mined in Alberta. Mr. Murdock states explicitly that the operators were ready to compromise, but that the miners' officials showed no such disposition, and he makes the very serious charge that these officials "have not the proper regard for the rights and interest of the public in this matter." He could hardly have scored the miners' leaders more severely nor exposed the impropriety of their attitude more impressively nor more resolutely.—Calgary Herald.

### BANKRUPTCY ACT CONDEMNED

At the recent meeting of the Dominion Board of the Retail Merchants' Association of Canada, held in Ottawa, a resolution was adopted, dealing with the Bankruptcy act, which it was claimed is unfair in that, undue advantage of it is taken by the Canadian Credit Men's Association in forging bankruptcies, and that under the act unfair compromises by insolvents can be made. A questionnaire will be sent out to the provincial boards throughout the Dominion to obtain views as to the proposed amendments.

### WHAT IS MODESTY?

Demand of church officials for more "modest" dress has led to the formation of various societies in the United States pledged to avoidance of the more extreme styles that reveal just a little too much of the "female form divine."

Advanced thinkers ask, "What is modesty?"

"They say that modesty is a mental, not a physical quality, and that pure-minded men and women could retain their self-respect even in the sparse costume of an African savage."

It is quite true. Dirty minds are the bane of all progress. And prudery is the enemy of freedom in dress and everything else.

But the church demand for more feminine body covering is not based on prudery. It is based on the absolute scientific fact that nearly 50 per cent of the people on this North American continent is sub-normal in intelligence and incapable of rising above the animal impulses generated by too much exposure of the female body.

Social customs, manners of dress and personal habits must regulate themselves to the world as it is, not to the world as it should be.

And, until the wild beast in man is totally subdued, all these fine idealistic theories in regard to such things as women's clothes must subordinate themselves to the expediencies of an imperfect world.—Vancouver Sun.

### BETTER TEACHERS:

#### HIGHER STATUS

Among the subjects discussed at the convention of the Canadian Teachers' Federation, which has just closed at Victoria was the position of the teacher in the community which it was pointed out, brought neither the rewards nor the consideration accorded the lawyer and the doctor.

Here in Vancouver, at the same time, the Commission conducting the Educational Survey learned that the teachers of this city were not consulted on professional matters by the school authorities and that their training and experience were utilized in the classrooms only.

Synchronously, arising out of a magazine discussion of the slipshod way in which English is spoken on this continent, the suggestion was made that still another subject be added to the curriculum of the public schools—elocution.

These several issues are related. The training of teachers for their work on the technical side is not so thorough as that of men and women preparing for the professions with which comparisons has been made. The tendency has been rather to stress the academic qualifications on the assumption that if one knew his subject he would be able to teach it.

To make teaching a profession in the sense that medicine and the law are professions there must be considerable development of the technical skill in teaching. How much that is needed is indicated by the proposal that children be taught elocution.

For if children were taught to read properly the instruction given them would make a course in elocution necessary.

But to teach reading as reading ought to be taught the teachers would have to understand the principles of elocution; that is, would have to have technical training to fit them for the task.

If, however, anything is done along the line suggested it is much more likely that special instructors will be called in than that the teachers will be required to learn their own business more thoroughly.

Yet the latter is the line along which the teachers may make their a real profession—the technical mastery of all the subjects taught so that special instruction in this, that and the other shall be unnecessary.

And along this line, too, may be found the solution of the problem of the ever-increasing cost of education, the creation of a body of teachers expert in every branch of their art.

But that will not be brought about until the educational authorities, instead of creating new positions for specialists, offer increased remuneration to the ordinary teacher who qualifies in the subjects the specialists teach and so build up a competent all-round staff able to undertake any duty in the schoolroom without outside assistance.—Vancouver Sun.

### THE PRINCE AND CANADA

A recent speech of the Prince of Wales at a Canadian dinner at Wembley has been favorably commented upon as a model for after dinner speakers. His Royal Highness is represented in one of the western exhibits by a statue in butter, and this will explain his reference as to "how he is faring this hot weather."

After a few words of greeting the Prince said: "Many members of my family have learned to know Canada and to love her. I do not think I need tell any of you that I have certain love for the Dominion. Canada has always been a real tonic to me. I do not know what it is exactly, whether it is the air or the great spaces, or what it is, but the fact remains. I remember the tonic effect that it had on me in 1919, the year of my first visit, a few months after the Great War, when I came straight from four years of horror and confusion to a great free country and a young country full of hope and confidence in the future. And so it was last year, a real tonic, when I spent a very happy month after a somewhat strenuous summer, and I am sure that it will be the same this fall, when I have every hope of returning to my ranch."

I am quite sure that my countrymen, the British Empire Exhibition. The who have not seen Canada will take high standard and effective organization the first opportunity of going over to the other side. I am not saying Wembley have won the admiration that Canada has not her own problem of all visitors. I have only been there once. Like the Test of the world she once myself, but I cannot think of a certainly has, but she is facing these better way of recalling my very problems with the courage and com- happy days in Canada, and learning mon sense that are characteristic of a great deal that is new, at the same our race. I feel that her invigorating time. There is a personal reason why atmosphere, the breadth of her hori- I am certainly going there again. It ron, from ocean to ocean, give Canada is to see how I have been faring during the Canadian people an advancing this hot spell. ## BEAUTY CLAY BY

## ANOTHER NAME

"A package of beauty clay, please," cool milady, tripping into some drug store in London, Paris, Chicago, Toronto or anywhere else on the face of the earth.

"Blank, blank, this yere gumbo, nayway!" swears the Alberta farmer, as he urges his sweating team through a spring morass of mud and clay that will, when it dries up again, be a prairie "dirt road."

Milady in her city finery and the prairie farmer perspiring in his gaily overalls are both speaking of the same thing, though neither of them knows it. They will if they happen to read this article, however.

Every spring since the silent buffalo trails of 100 years ago echoed to the shrieking wooden wheels of the Red River cars of those first settlers of the prairie, homesteads, the hard and well packed dirt roads, when the rains beat down upon them, "disolve into a dew," as friend Hamlet says, and the reason is—beauty clay.

Only those early settlers didn't call it beauty clay, nor did their successors of the auto and the tractor call it that, either, says the Chicago Tribune. They call it just "gumbo" only they embellish the simple name with a wealth of profanity suitable to the hard and dirty work entailed in plowing through the foot or more of soggy, sticky clay that once was a road.

One thing the early settlers did find out, however. A handful of the dirty white, chalky substance from the dry roadside, softened in a pall of water, sucked up that water like a sponge and made a splendid hand cleansing material, rubbing out the dirt and oil of travel and leaving the hands soft and clean.

This same quality of absorbing lots of water is really what turns the prairie dirt road into a morass when spring rains come. The dry gumbo drinks and drinks with the avidity of a prohibitionist on a water spree, only quitting when it has absorbed 12 times its own weight of water. Scientists, trying to discover why prairie roads dissolved into mud baths, examined the much maligned gumbo and recognised an old friend long known to their craft—bentonite.

Being rather fastidious, those early road building engineers had to shave once in a while, and, since real shaving soap was not one of the commodities having a ready sale in a pioneer land, the well-known cleansing and softening properties of bentonite were called into play. Mixed with ordinary common soap, bentonite

turned it into a really good shaving soap.

Then along came the beauty doctors, seeking something that would cleanse and soften milady's face. They probably heard of bentonite's qualities, as discovered by the old timers of the prairies. Here was a mineral clay which, when wet, expanded, and contracting as it dried, drew out dirt and dust, oil and grease, cosmetic and powder, leaving the face soft and fresh.

A little oil to keep the clay plastic—a little coloring matter to tint the dirty-white of the natural clay—a little perfume to render it sweet smelling—lots of advertising, and there you have beauty clay, madam, discovered after years of patient research by our own chemists, in our own laboratories, and only a dollar a package. Sufficient in one package for three treatments, etc!

The beauty parlor is not the only place where bentonite is used, however. It is a component of soap and before the World War was largely used by British soap makers, though the supply of the mineral then came principally from China. At a later date, when shipments of bentonite were difficult to secure, water glass was substituted.

As a lubricant, as a filler for paper which requires a highly polished surface and in certain processes in the making of paper pulp bentonite finds other important places in industry.

All of which, if known to the western Canadian farmer, should make him take more respect toward this wonderful bentonite with which his roads are so prodigally strewn. Yet the chances are that until the end of time, the prairie farmer will go on saying, as he urges his sweating team through that morass of spring, which will become summer's dirt road, "Blank, blank, this yere gumbo, nayway!"—Ex.

At a conference of Presbyterian clergymen and laymen held at Lethbridge last week, a resolution was unanimously endorsed, calling for meetings throughout the southern part of the province of representatives of the various Presbyterian congregations with the Methodists, with a view to immediate action towards union.

Ross Synder, plumbing contractor, motored to Coleman from Cardston on Thursday last. He was accompanied to Blairmore by Mr. Smith, inspector of government buildings. Mr. Smith and son scaled Turtle Mountain during their stay here.

## HILLCREST HAPPENINGS

Mr. Salvagi and family are spending a few days in Calgary.

James Gordon, senior, left on Tuesday to spend a few days in Calgary.

Mr. and Mrs. T. Davies and family returned on Sunday, after a motor tour to Spokane and Portland.

Mrs. Ed. Royle and Nellie Royle returned on Saturday, after spending a few days visiting at Corbin, B.C.

J. Mackie has been engaged the past few days installing a radio outfit, in order to soon communicate with Mars.

Quite a number took advantage of the good weather to journey to Lethbridge by auto to see the Lethbridge-Corinthians football game and report an excellent game.

Johnny Merton and Lambert White, who went to Chicago some months ago to take a course in motor mechanics, returned a few days ago, looking very much Americanized.

Monday, the 25th, was the day for the school to re-open, with exception of the higher grades, owing to Mr. Tonks, the principal, being in England. He is expected back about September 10th. There is no change in the staff, which speaks well for Hillcrest and the school board.

Fumigati Brothers, of the Hillcrest Garage, have installed a new and more up-to-date gasoline service pump. It is to be hoped that before the cold weather comes they will install a heating apparatus, so as to enable anyone to store their cars there during the winter months.

A jolly party, consisting of Messrs. O'Neill, Cooman, Hyman and Royle, and their families, had dinner together a few days ago at one of Blairmore's hostesses. Ways and means of entertaining the governor-general on his next visit to Blairmore were fully discussed, but owing to the absence of Mr. and Mrs. Bartlett the matter was deferred. It is hoped that Mayor McLeod will be present at the next meeting.

The September issue of Rod and Guy in Canada will appeal to every sportsman. A canoe trip through the Chain Lakes from Dartmouth to Shubenacadie, by E. G. Urquhart describes one of the most alluring trips that can be made anywhere in the Maritimes. The Four of Us, by H. Lonsdale is the story of a perfect two weeks' hunting trip, while Bonnycastle Dale gives an interesting account of how the Slim Wriggling Eel is taken in winter on the Atlantic Coast. Raymond Thompson's story of the frozen north, entitled The Fur Cache, is one with an unusually good plot. Mildred Low introduces the reader to a very interesting group of people. The Guides of Algonquin, and Martin Hunter narrates in his usual vivid style in Circulating. All the regular departments are up to their usual standard of excellence and aid in providing good all-round reading in this number of the magazine.—Rod and Guy in Canada is published by W. J. Taylor, Ltd., Woodstock, Ont.

At a small country school the scholars were having a lesson on animals. The teacher had asked a number of questions which were easily answered. At length she said: "Why does a dog hang out his tongue when running?" "To balance its tail," was the reply given by Tommy.

A clergyman chose for his text the following words: "Which of you will go up with me to Raineth Gilead?" Then, pausing, he again repeated the words. At last a caller started from his seat and, looking around him with eyes full of indignation, exclaimed: "Will none of you go with the gentleman? Then, hang me, I'll go myself."

Miss M. E. Rae returned Monday morning from her summer vacation, spent at Scotsburn, Nova Scotia.

No, sir, paint will never take the place of gasoline in an auto engine!

## Mounted Mountaineers Pow-Wow at Yoho

Above, Starting on the first Annual Ride. Below, Chief Walking-in-the-woods picks out a few odd packs for a fair Trail Rider.

Early last July a small party of riders was camped on the plateau which lies between Tumbling Creek Glacier and the gap in the Vermilion Range of the Canadian Rockies known as the Wolverine Pass. The day was warm and conducive to sleep, and, because on this account one of the party dozed and dreamed later caused the other members of the party to enquire over his dream, there gathered in the Yoho Valley of British Columbia a week since, two hundred and six prominent Canadians, Americans and Europeans, calling themselves Trail Riders of the Canadian Rockies. Each had qualified for membership in the Order by riding at one time or another not less than fifty miles through the Rockies on horseback.

This unique gathering, recording as it did the first attempt to form an association of mounted mountaineers, was characterized by Dr. Charles W. Walcott, head of the Smithsonian Institute of Washington and honorary president of the Trail Riders, as a step which will prove one of the greatest international attractions. The attendance at the First Annual Ride of the Trail Riders exceeded by far the most sanguine hopes of the organizers, but fortunately, Yoho Camp, that beautiful village of chalets a mile above the sea, had been reinforced with twenty Indian keepers and a huge Sun Dance Lodge which had been erected at camp headquarters by Stony Indians under the supervision of Chief Walking-in-the-woods.

Only one trail rider left this camp with what could be termed a legitimate grouse. This was Dr. Walcott who was hanging at the back of his chalet when he last saw it.

Riding was, of course, the order of the day, and many of the riders, enchanted by the scenery, fell far behind the main group and lingered on the heights till night fell. In the evening the mountain enthusiasts gathered in the Sun Dance Lodge to talk over the day or to sing and dance and otherwise amuse themselves. After the white-mane pow-wow on the second night a real Indian pow-wow was danced by Chief Walking-in-the-woods and Chief Buffalo-Chief Long Lance, to the accompaniment of Indian singing and the beating of tom-toms by a group of Stony braves.

Altogether the first annual pow-wow of the Trail Riders of the Canadian Rockies was a huge success, and the organizers believe that henceforth the Canadian Rockies will receive the recognition and appreciation which is their due.

## ENGLAND WILL SUPPORT CANADIAN ENTERPRISES

Before leaving England recently after a short visit to that country, E. W. Beatty, president of the Canadian Pacific Railway said "I cannot help but regard Canada as the greatest actual potential asset in the Empire, and when exchange is at parity I feel quite confident that England will support Canadian enterprises and Canadian development will be very extensive." The photograph reproduced above shows Sir Thomas Fisher, general manager, Canadian Pacific Steamships, (left); Sir George McLaren Brown, European General Manager of the Canadian Pacific; Mr. Beatty and Captain J. Turnbull, commander of the Montaurion.

## WHY OUR FACES GROW LONG

The human face, claims a British scientist, is gradually becoming longer. Long, narrow heads with sharp jaws is the tendency. It is the result of more intense thinking. When a person thinks deeply, the mouth tends to purse, the cheeks to be pulled in and the chin sags downward. Taking life too seriously does the same—"wearing a long face."

Eddie Berger has been sent up for trial at Lethbridge on the charge that he did unlawfully make a statement before an officer authorized by law to permit it to be made before him, which would amount to perjury if made on oath in a judicial proceeding, contrary to the provisions of Section 176 of the Criminal Code. He has been remanded for trial on September 9th, before Judge Jackson, bail being set at \$10,000. W. S. Beattie is acting for defense.

Eugene Large, manager of the Fernie Motor Car Company, Limited, of Fernie, was in town yesterday. We understand that Mr. Large is endeavoring to secure a lease of the Blairmore Garage from Mr. Dutil.

The Moran Circus is showing at Frank this week and is proving quite an attraction. A special feature each evening is a boxing contest, a challenge being handed out by a concession of the company to all-comers. Some interesting bouts have resulted.

If you are driving and a sweet young thing is leaning on your shoulder, it is dangerous to step on the accelerator.

Canadian exchange touched par for the first time in the United States this year on August 19th.

School re-opened on Monday morning for the fall term, with a slightly increased enrollment.

Miss Norma Dillingham, of Innisfail, has been the guest of Miss Louise Gresham during the week.

Miss Doris Knapman accompanied Mr. and Mrs. Thael to Lethbridge by motor on Sunday last, to spend a few days.

Mr. and Mrs. Linville returned last week end from a ten days' fishing trip up the Livingstone, where they report having had good luck.

Mayor and Mrs. A. McLeod returned Wednesday morning from Vancouver, where the latter had been consulting a specialist.

An auction sale of farm implements and sundries will be conducted by W. T. Eddy at Lundbreck on Monday afternoon next, starting at 2 o'clock.

Mrs. Owen Morgan and children, accompanied by her brother, Mervyn Evans, returned Friday morning from Saunders, after an enjoyable holiday.

Mrs. J. Huxton and son Norman, of Nelson, spent Tuesday as the guests of Mrs. W. O. Evans and proceeded to Calgary by that night's train.

A dance will be given in the Lundbreck Hall on the night of Friday, September 5th, under the auspices of the hall committee.

We regret to learn of the death at Vancouver of Mrs. Wright, wife of Rev. Willis Wright, of St. Matthew's Presbyterian church, formerly of Pincher Creek.

A hot dog contest took place at the Frank road show on Monday night. We understand that two prominent Blairmore ladies came near winning the eating honors.

Capt. Beels was out bright and early on Tuesday morning with a powerful field glass, trying to discover if there was any unoccupied land available for homesteading on Mars.

The "Empress of Scotland," one of the Canadian Pacific Railway's finest liners, docked at Quebec on August 30th with a passenger list crowded with important names. Among them were Lord Beaverbrook, the Canadian financier, Edward W. Bok, editor of the Ladies' Home Journal, whose offer of a fifty thousand dollar prize for the best plan tending to maintain world peace created so much interest recently, and E. W. Beatty, K.C., Chairman and President, Canadian Pacific Railway. Mr. Beatty had just concluded a most successful tour of Europe with the object of attracting capital and immigrants to Canada. He spoke with great enthusiasm of the prospects of obtaining both and especially anticipated an influx of the new Canadians from Delmar.

New Things

## Prominent Passengers on Empress of France

Top left, E. W. Beatty, K.C.; right, Hon. Charles A. Dunning; bottom left, Lord Beaverbrook, K. W. Hoar, Prime Minister and President of the United States.

The tide of steamship traffic is turning westward again, and the St. Lawrence route is still the favored one. Beside large numbers of immigrants returning Canadians, a great many European tourists are now turning toward Canada and these form no small percentage of steamship passengers. Perhaps the most distinguished list this season, was carried by the Canadian Pacific S.S. Empress of France on her last westward voyage. Among those on board was Lord Beaverbrook, who with several members of his family will spend some time in this country. He was accompanied by T. Mason, M.P., O.B.E., his secretary. Other prominent British passengers were Sir Evelyn Cecil, O.B.E., M.P., and Col. Vaughan Morgan, O.B.E., M.P., of London. E. W. Beatty, the famous Philadelphia publisher of Peace Prize fame also made the voyage.

Two passengers in whom much interest centered were Prince and Princess Serge Obolensky whose recent marriage in Paris was one of the social events of the year. The Princess was formerly Miss Astor. The Hon. Charles A. Dunning, premier of Saskatchewan, was also on the Empress. Other prominent passengers included Mr. R. B. Borch, the inventor of the Bosch Magneto, and Mrs. W. H. Taft, who was met at the dock by her husband, W. H. Taft of the U.S. Supreme Court and ex-President of the United States.

E. W. Beatty, President of the Canadian Pacific Railway, returned to the Empress of France from a short visit to the company's agencies in England and Scotland and protested that the most possible of a furtherance of trade between these countries and Canada. Asked whether he had seen the Canadian papers while abroad, and had noted the storm of comment and protest that had followed upon the Crow's Nest Pass rates, Mr. Beatty replied that he had seen a good deal of this, and it was nothing more than had been expected by himself and other railway officers.

"At the time the proposed restoration of the Crow's Nest rates was under discussion," he said "it was made abundantly evident by the railroad that they could not afford in the face of existing costs of operation for labor, materials, equipment, etc., to extend the operation of the Crow's Nest rate beyond the limits originally fixed. It was also fully explained that if restoration was forced upon the railways many inconsistencies would inevitably result, and some parts of the country would be unduly favored in comparison with others."

"One of the grave difficulties of the day in railway operation in Canada is that theorists in railroad management are preaching a doctrine that give no thought to the cost of operation in relation to the price the railroad is permitted to get for the service it gives as a common carrier. In most other lines of business, cost to the consumer is based on the cost of production. I cannot see why it should be different in the selling of freight or passenger transportation. Somebody has got to pay wages and other operating costs, and if the shipper is not willing to do so, I do not know who will, unless the country will pay it as a whole and I imagine that even the strongest supporters of public ownership will agree that we have reached the limit in that direction."

"It is axiomatic, too, that the continuous betterments and improvements to existing railway lines and the provision of capital for extension and new constructions generally depends directly upon the earnings power of the companies, especially in the case of the Canadian Pacific. These funds must be secured in the money markets of the world and it would be in every respect unwise to borrow unless the general earnings of the company were satisfactory. One of the difficulties facing the railway companies in Canada is that there is not a sufficient margin between revenues and outlays to permit of surpluses for working capital and for the general purposes of the companies. Until this margin is re-established extensive borrowings are highly undesirable. Nothing is more conducive to satisfactory commercial conditions than a healthy transportation situation and this can only be accomplished if a proper relation exists between revenues and disbursements."

"I should like to point out," said Mr. Beatty, "that the Interstate Commerce Commission in the matter of rates and charges on grain and grain products in the western United States very recently decided that the general rates of rates then in effect did not appear to be unreasonable and dismissed the case without a decision. It should be remembered that rates of grain and grain products now in effect in western Canada are not less than 25 per cent. lower than those in the United States. The Interstate Commerce Commission is comprised of highly qualified economists who approach the technical and allied questions of railway rates in a thoroughly scientific manner. On the other hand, the rate situation in Canada which has been the subject of so much comment recently has been brought about by the restoration by act of Parliament of the railway rates of nearly thirty years ago without regard to all the present day costs of the inevitable disruption of the relationship which otherwise existed between various commodities and various producing centers."

Mr. Beatty added that figures had been filed with the Government showing the approximate decrease in revenue to both the Canadian National and the Canadian Pacific since the restoration of the Crow's Nest rates of grain. These, he said, reflected a very serious loss of earning power to the roads which would be made still more serious by the recent restoration of the rates on the balance of the commodities enumerated in that act.

### A FIXED DATE FOR EASTER

A Commission of the League of Nations met in Paris to prepare a revision of the Gregorian calendar for establishing a permanent date for Easter. It is also hoped to arrive at a calendar in which not only would the months all have the same length, but the days of each month would fall on the same day each year. This second revision would be ignoring one day each year, that is, the 366th day, which simply might be called the "Extra Day," and so leaving 364 calendar days split up into 52 equal weeks. "These revisions," explained an official of the League of Nations to the Westminster Gazette, "are considered by shipping, railway and other authorities to be very greatly needed. For the first time the League has succeeded in getting official representatives of the Roman Catholic Church, the Church of England, and the Greek Orthodox Church to discuss a religious question and it has convinced the ecclesiastical members of the conference, of all Churches, of the desirability of making Easter a fixed and not a movable feast."—The Scottish Chronicle.

### NOTICE TO CREDITORS AND CLAIMANTS

IN THE ESTATE OF LOUIS PONTI, late of the Town of Blaimore, in the Province of Alberta, Deceased.

NOTICE is hereby given that all persons having claims upon the Estate of the above named LOUIS PONTI, who died on the 6th day of January, 1924, are required to file with the undersigned Administrator with the Will annexed, by the 15th day of October, 1924, a full statement duly verified of their claims and of any securities held by them, and that after that date, if the said Administrator with the Will annexed, will distribute the assets of the deceased among the parties entitled thereto, having regard only to the claims which notice has been so filed or brought to my notice.

DATED this 21st day of August, 1924.

CHARLES SARTORIS, Administrator with Will Annexed, Blaimore, Alberta. MESSRS. GILLIS & MACKENZIE, Solicitors for the Administrator.

### In Loving Memory

of JANET, Aged Five Years and Three Months Darling Child of Mr. and Mrs. Seth Martin. Who died August 27th, 1924. "Her memory lingers with us yet." Inserted by her father and mother.

### COSMETICS

Notwithstanding the fact that the best medical testimony is against the excessive use of cosmetics for beautifying the complexion, many women persist in using them.

There is little doubt that the use of cosmetics is always harmful to the complexion. Statistics may also be given to show that prevalence of poisonous substances in many beautifying agents offered for sale is alarming indeed. Women who still persist in using something for the face should be exceedingly careful to secure those articles which are well known to be the very best quality and free from the ingredients which in time do untold harm and cause permanent injury.

It is rather a curious fact that what was once considered to be poor form is fast becoming the proper thing with the average woman, more especially in the larger centres. "A lot of women paint," says a prominent doctor, "all of them use powder of different types. The average woman uses at least some of the long list of cosmetics, and yet many of these women are not aware of the danger from their use."

Regardless of the quality of the material used on the face there is if the operations are not performed properly, a mechanical obstruction caused by the use of rouges, creams and powders. Almost every child knows that the pores of the skin are nature's agents to serve as excretory and lubricating ducts. If these are constantly closed up it naturally follows that the mechanical obstruction alone is bound to injure any skin.

Another prominent physician says that in addition there is the specific chemical action, depending in the first place on the susceptibility of the patient, secondly on the strength and duration of the application, along with the character of the nostrum applied, for example mercury, arsenic, paraphenylenediamine.

The statistics are not at hand relating to the use of cosmetics in Canada, but reports available for the United States indicate that in 1919 American women spent \$205,000,000 in the quest of beauty by way of the cosmetic route, and the reports also indicate that in 1921 this amount had grown larger by \$75,000,000.

Today the question of beauty ills and dangerous conditions has become so important as to engage the attention of conventions of physicians who have been carefully studying the most advanced methods of preventing and coping with disease.

Few people, men or women, will deny the right of every woman to look her very best, in fact most people concede that such is her responsibility. It has, however, been proven in a million cases that the best cosmetics for the complexion, for "good looks" generally are cleanliness, healthful exercises, the cultivation of a cheerful disposition and the development of morality and righteousness within the soul itself. — Western Woman and Rural Home.

Police rules require that "If a member of the Provincial Police Force meets the Lieutenant-Governor or a cabinet minister, or a judge of the Court of Appeal, Supreme Court or County Court, the constable, non-commissioned officer or officer, must salute," but must in any case remove his pipe several hours beforehand.

Bill Sherman is spreading a lot of propaganda in the press about the solidity of District 18 in the matter of the strike. There is a widespread spirit of discontent prevailing in every camp, which keeps the Benchman of Lewis on the jump all the time and which one of these days is going to break out and smash the Union to smithereens. Trying to win a strike on miserable little dolars of four or five dollars a month is a tough proposition and is bound to end in a fizzle.—Pernis Free Press.

Mr. W. Shaw, district superintendent of the P. Burns & Co. operations, was up from Lethbridge on Tuesday.

### MIGRATORY BIRDS CONVENTION ACT

A summary of the Migratory Birds Convention Act is given below. This is the law which is based upon the Treaty with the United States. Any enquiries concerning this law may be addressed to the Commissioner of the Canadian National Parks, Department of the Interior, Ottawa:

Open season, both dates inclusive—Saskatchewan: Ducks, Geese, Brant, Rails, Wilson or Jack-snipe, Black-bellied and Golden Plover and the Greater and Lesser Yellow-legs; September 15th to December 31st. Alberta: Ducks, Geese, Brant, Rails, Wilson or Jack-snipe, Black-bellied and Golden Plovers and the Greater and Lesser Yellow-legs; September 15th to December 14th.

Closed season—There is a closed season in the provinces of Saskatchewan and Alberta on swans, wood duck, elder duck, cranes, curlew, willets, godwits, upland plover; avocets, dowitchers, knots, oyster-catchers, phalaropes, stilts, surf-birds, turnstones, and all the shore-birds not provided with an open season in above schedule.

There is a closed season throughout the year on the following non-game birds: auks, auklets, fulmars, fulgents, grebes, gullinets, gulls, herons, jaegers, loons, murrelets, petrels, puffins, shearwaters, and terns; and there is a closed season throughout the year on the following insectivorous birds: bobolinks, catbirds, chickadees, cuckoos, flickers, flycatchers, grosbeaks, hummingbirds, kinglets, martins, meadow-larks, night-hawks or bull bats, nuthatches, orioles, robins, shrikes, swallows, titmice, swifts, tanagers, thrushes, vireos, warblers, waxwings, whippoorwills, woodpeckers and wrens, and all other perching birds which feed entirely or chiefly of insects.

No person shall kill, capture, injure, take, or molest migratory game birds during the close season. Sale of these birds is forbidden.

The killing, capturing, taking, injuring or molesting of migratory insectivorous and migratory non-game birds is prohibited.

Penalty—Every person who violates any provision of this act or any regulation shall for each offence be liable upon summary conviction to a fine of not more than three hundred dollars and not less than ten dollars, or to imprisonment for a term not exceeding six months or to both fine and imprisonment.

### BEER PARLORS MUST BE "ON VIEW" AFTER CLOSING

Tighter still are the provisions of the Liquor Control Act.

New regulations just announced in the Alberta Gazette provide that premises licensed for the sale of beer by the glass must be "on view" from the street after closing hours.

It is set forth in the regulations that no person other than the licensee, or his wife, or an employee is allowed in the beer premises during closed hours. And the whole world must be allowed to see that this is the case for the beer parlor must not be shut out from view. On the contrary, curtains and shades must be arranged so as to permit of a clear view from the exterior.

But that is not all. If the proprietor is a bit thirsty and wants to refresh himself with a glass of beer before retiring he is out of luck. For no beer is to be consumed by the proprietor, his wife or his employee after closing hours.

### RHODES BROTHERS TO OPERATE OLD PARKER MINE

We understand that the old Parker mine, southwest of Lee Lake, is to be operated by Messrs. Rhodes Brothers under the style of the Rhodes Mining Company. The coal is of high-grade steam and domestic quality, / Burns will be the nearest shipping point.

An Edmonton girl attempted suicide because several young men had made fun of her bobbed hair.

### BELLEVUE FLOWER SHOW

The seventh annual exhibition under the auspices of Bellevue and Industrial Club takes place at Bellevue on Monday next.

The exhibition this year will be staged in the spacious skating arena, which has been specially arranged and decorated for the occasion.

The Bellevue Exhibition for the past several years has been second to none of its kind in Western Canada and weather conditions being favorable, this year's display of outdoor grown flowers and produce will surpass in number of entries and quality all previous records.

The prize list for this year offer 115 classes in the variety section, six in the industrial section, and thirty in the ladies' and children's sections. A great many special prizes are being competed for, including the Club Cups and medals, Union Bank Cups and medals, and Henry Birks & Sons' silver cup.

In addition to the show, a sports programme will be carried out during the day and at night a grand dance will be held in the I. O. O. F. Hall.

Bands will be in attendance during the day and will lead off a grand motor car and cycle parade at 10 a.m. A grand prize is being offered for the best dressed car and cycle in the parade.

A feature of the sports programme this year will be horse and pony racing and a quibits competition.

Upwards of two thousand dollars will be awarded in prizes.

Refreshments both will be operated during the day.

### DRY ERA SPELLS "RUIN"

J. B. Welch, writing to the Spokesman Review of recent date, says that:

"Prohibition has a lot of sins to answer for. Prohibition brought the bootlegger and the moonshiner. Prohibition is the cause of high taxes. It put the farmer 'on the bum.' It filled our jails and asylums."

"Prohibition has made criminals of eighty per cent of our people, and caused more crime to be committed in the United States than in any other country in the world. Prohibition is costing the people about \$108,000,000 a year to enforce. Then we can't do it."

"Prohibition is to blame for the hard times. If it wasn't for prohibition, the money that is tied up in the banks would be in circulation and times would be 100 per cent. better. Prohibition is to blame when a lot of poor devils put a 'plaster' on their homes to buy automobiles in order to keep up with the times."

### DID YOU EVER STOP TO THINK?

THAT live towns have leaders who are magnetic, intelligent and courageous enough to lead.

THAT when they command the allegiance of enough citizens towards a program for development, it is sure to be carried out.

THAT if it were not for this class of men, many towns would be moving backward instead of forward.

THAT when towns wait for prosperity to hit them, without effort on their part, it usually misses them. The "waiting game" won't work.

THAT there is room in every town for more factories. A trip through any town will show many sites available.

THAT when you want anything in this world you have to go after it. THAT a study of the situation will show that any live town has many advantages to offer.

THAT when a prospect is in sight everything possible should be done to land it. When no prospects are in sight boosters should go out and hunt them—with the right kind of effort they can be found.

THAT after prospects are found the boosters should never quit until they land them. Then they should pep up and get some more.

Factories mean growth for a town. Copyright, 1924, by E. R. Waite, Sec., Shawnee, Okla., Board of Commerce.

### LODGE DIRECTORY

#### Blaimore Lodge No. 68, I. O. O. F.

Meets every Tuesday night at 8 p.m., in the Oddfellows' hall. Officers for the ensuing term: N.G. A. Mosey, P.G.; V.G. D. A. Howe; E. S. J. R. Harmer, P.G.; Fin. Sec. J. R. Gosham; Treas. J. Montabetti, P.G.

#### Crows' Nest Encampment No. 8, I. O. O. F.

Meets on the second and fourth Wednesdays of the month in the I.O. O. F. hall at 8 p.m. Officers for the ensuing term: J. McKee, C.P., W. Kerr, S. W. J. Howe, H. P. W. Patterson, R. S. J. Montabetti, Treas.

#### Crowfoot Rebekah Lodge No. 68, I. O. O. F.

Meets the first and third Thursdays of the month at 8 p.m. Officers for the ensuing term: Sister Dawson, N. G., Sister Davis, V.G., Sister Christophers, R.S.; Sister Wheatley, F.S.; Sister Warner, Treas.

#### Livingstone Lodge No. 22, KNIGHTS OF PYTHIAS

Meets in the Castle Hall, corner of Eighth Avenue and Victoria Street, on the second and fourth Fridays of the month at 8 p.m. Visitors are always welcome. Officers for the term: C.C. F. Wright; V.C.; E. Elliott; K. of R. and S. B. Senior.

RED ROSE ORANGE PEKOE

## A Better Day Dawns

After years of negotiations, and following the failure of one conference after another to make any substantial headway, an agreement has at last been reached with Germany regarding the payment of reparations which gives promise of putting an end to the impossible situation so long prevailing in Europe and which has brought economic distress throughout the world.

The agreement reached, based on the Dawes report, has received the unanimous approval of the British, French and German cabinets and is fully acceptable to Belgium. France and Belgium have undertaken to evacuate the Ruhr within one year, and in all probability the evacuation will be completed within a less space of time. Already certain towns in Baden have been evacuated.

At the conclusion of the conference in London at which the agreement was reached, the Premier of France and the Chancellor of Germany shook hands. This was the first post-war conference, says one of the German participants, in which the words "vanguard" and "victor" were dispensed with, and he adds: "Throughout the negotiations we were never made to hear one disagreeable word." On his return to Berlin, the German Chancellor expressed his belief that the French Premier was sincerely desirous of promoting the peace of Europe, and he was satisfied by the best intentions and could be trusted. It is further reported that France and Germany will shortly open negotiations concerning commercial treaties.

Not quite six years have elapsed since the signing of the Armistice which ended actual hostilities in the Great War, and while it seems a long period of time in which to bring about an agreement regarding a matter which was first covered by the Peace Treaty, it is not, after all such a long time in which to allay the most bitter feelings and to quiet the deep-rooted suspicions of each other following more than four years of warfare and unprecedented loss of time and property.

People are apt to grow impatient with diplomats and statesmen entrusted with the handling of delicate international questions, and to become very critical of them because more rapid progress is not made in the settlement of outstanding problems and to quit the deep-rooted suspicions of each other following more than four years of warfare and unprecedented loss of time and property.

The fact that so much progress toward a better understanding in Europe has been achieved is a matter for profound congratulation, not to the peoples of Europe alone, but to the whole world. Before 1914 Canadians gave little heed to European quarrels, and regarded them as something which were no particular concern of residents on this side of the world. But the Great War brought a sudden and bitter awakening. We learned that not only our material progress, but the lives and liberties of our people were jeopardized through issues which were not of our making. And since the Armistice we have had daily reminders through depression in trade and economic losses of many kinds that no nation today can live in isolation, and that what adversely affects one part of the world affects all.

In Canada, therefore, we have a reason to rejoice that an agreement has been reached paving the way for a better understanding in Europe, for a relaxation of the state of war which has to all intents and purposes existed through the French and Belgium occupation of the Ruhr, and for the replacing of old suspicions and fears by the mutual acceptance of a sincere intention by all to live up to their obligations to the state to the other.

The London conference in its final results, gives promise of better days, and renewed prosperity throughout the world.

## Make Topographical Survey

**Hydroplane Used to Take Aerial Photographs in Saskatchewan**  
Flying a Vickers-Viking hydroplane, four members of the topographical survey division of the Ministry of Interior, Ottawa, have taken more than 2,000 photographs in Northern Saskatchewan.

Ideal weather prevailed on the trip which occupied about three weeks, but the conditions for photographing were not always good. The photographs were taken of the country between Lac du Trochet and Prince Albert. The aviators covered the country between Stanley Mission, Lac la Poudre to Prince Albert in 10 hours flying time, reaching the northern city Monday afternoon and leaving for The Pas and Victoria Beach the following day. At Prince Albert the hydroplane was moored on the North Saskatchewan River. Altogether the aviators have covered about 2,500 miles.

More than 200,000 houses have been built in Great Britain since 1919.

## SUFFERED WITH ECZEMA 3 YEARS

Itched and Burned So  
Could Not Sleep.  
Cuticura Healed.

"I suffered for three years with eczema which itched and burned on my limbs, and soon spread to my neck and forehead. I could not sleep and it was most impossible to sleep at night. I scratched it, it would bleed. The breaking out caused great discomfort. I began using Cuticura Soap and Ointment and after the first week I got relief. I continued treatment and in about six months I was completely healed." (Signed) Mrs. George Foster, R. F. D. Box 22, Freedom, Me., Aug. 15, 1923.

Use Cuticura for all skin purposes.

## Trying Out New Scheme

**Good Conduct Convicts From English Prison Given Holiday**  
More than 30 "star men," or good conduct convicts, from Maidstone Prison, have arrived at the "prison hotel" of English convict establishments, as the Camp Hill prison on the Isle of Wight is familiarly called.

This is stated to be the first trial of a new development in the humanizing of the penal system. Living in the more like cottages than prison cells, the selected men will work in the forest of Park. They take their meals, together, and meet each evening in a smoking room, where newspapers, books, tobacco and cigarettes are allowed.

They can expend their earnings (awarded for good conduct) on luxuries purchasable at a canteen—a "dry" one, however. The "holiday" will last about three weeks.

**Northern Ontario Exports Increase**  
Exports of the products of the Northern Ontario to United States for the first six months of the year showed an increase of approximately 45 per cent. over those for the same period of last year, according to statistics of the American consul at North Bay. The total value of exports for the period was \$24,937,679 in comparison with \$17,295,368. Gold bullion exports show an increase of more than 100 per cent; silver bullion of 30 per cent; lath, 450 per cent; and newspaper 40 per cent.

**Plenty Of Practice**  
The middle-aged man had just broken the world record for a 50-yard dash.

"How on earth did you develop such wonderful speed?" they asked.

"Crossing streets in the downtown district," he modestly replied.

Minard's Liniment Relieves Pain.

## The Power of Advertising

Found To Be An Economic Force Of The First Order

Our forefathers talked about supply and demand as if there was a natural and perfect adjustment between the two. The modern business man has discovered the demand must often be created and that advertising is the one essential element in its creation. Advertising is thus not merely an adjunct or an equipment; it is an economic force of the first order, and the advertising expert occupies a place in the hierarchy of industry and commerce not less important than that of the elements which the older economists alone designed to notice. Advertising is no longer a matter of private interest. It is one of national and international importance. —The London Evening Standard.

## TOO MANY HOME CARES

**One Reason Why So Many Women Are Weak and Run-Down**  
The work of the woman in the home makes greater demands on her vitality than men realize, and there is always something more to do. No wonder, therefore, that many of the nerves are worn out. No wonder why they get depressed and irritable, suffer from headaches, are nervous, out of sorts. But of course all women are not like that. What is the reason?

A woman with plenty of healthy red blood in her veins finds work in the home easy; her vitality is at par. This points the way to health. It is the man who feels run-down and depressed, who has the new blood. You can do this with Dr. Williams' Pink Pills. These pills have the marvelous property of building up the blood and toning up the nerves. That is proved by the case of Mrs. E. Epplinger, Scott Street, Vancouver, B.C., who says: "Dr. Williams' Pink Pills brought back my health and strength and restored my nerves to normal condition after other medicines had failed. It was after the birth of my second child that I became so anemic and nervous that I thought I would lose my mind as well as my strength. I tried several medicines, but got no relief until I was advised to try Dr. Williams' Pink Pills. After using a few boxes of these I could see a change. I felt stronger; my appetite was better; I slept better, and my nerves were stronger. I continued the use of the pills for some time, and again found myself a well woman, and I can sincerely say that my health has since been the best. I am cheerfully recommending the pills to all weak run-down women."

You can get these pills from your druggist, or by mail at 50 cents a box from Dr. Williams' Medicine Co., Brockville, Ont.

## Discovering the Arctic

Great Mistake to Regard Data as Valueless Says J. D. Craig

The leader of an expedition sent to the islands in the Arctic by the Government, J. D. Craig, D.L.S., thinks that it is a great mistake to regard these as valueless. The data obtained warrants, he holds, the belief "that some day possibly in the not too far distant future, our little known far northern districts will prove to be more than merely a source of interest to the explorer, the big game hunter and the trader." The example of Alaska, with all the development that is going on there, is cited by Mr. Craig for the purpose of warning Canadian explorers not to lightly assume that the country lying towards the Arctic and the islands in that ocean are so much frozen waste. —From the Edmonton Bulletin.

**Its Quality Sells It**—The fact that so many thousands of intelligent people continue to use Dr. Thomas' Eucalypti Oil speaks volumes for its healing efficiency. Ever since it was first introduced it has grown steadily in popularity, owing, entirely, to its manifold usefulness in relieving and healing sickness. As a specific for cuts, burns, scalds and the various inflammatory pains its record is beyond reproach.

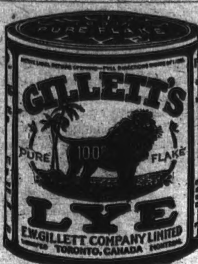

**New Lumber Company in B.C.**  
The Skeena Lumber Company has been registered with capital of \$500,000 to take over the Kleasno Company, Ltd., lumber and mining operations at U.K. The new company is financed by Minneapolis capital and has power to establish a pulp and paper mill.

All mothers can put away anxiety regarding their suffering children when they have Mother's Own Worm Expeller to give relief. Its effects are sure and lasting.

**To Maintain Empire Fair**  
The British Empire Exhibition will be open next year at Wembley according to the parliamentary correspondence of The Daily Telegraph, who states he has learned of this on the highest authority.

Jupiter is nearer the sun by more than 40,000,000,000 miles in one part of its orbit than in the opposite part.

**MURINE FOR YOUR EYES**  
Wholesome Cleansing Refreshing

## Why Starve Yourself?

**"Improved" Foods Do Not Contain Vitamins Essential To Health**  
If your food consists of white bread, meat, vegetables boiled into a smooth porridge, cooked fruit, manufactured jams and other sweets, you are starving your body of the vitamins, essential to your living principles essential to your health, which have been retained out of otherwise scientifically removed from all of the above articles of your diet. You may go on living like this for a number of years, but sooner or later, outraged Nature will impose the inevitable penalties.

Constipation is pronounced by many eminent authorities to be the universal ailment of the civilized world, and is caused by general vitamin starvation of the popular diet.

Apart from the fact that constipation is, without one exception, the forerunner of cancer and the colon is the breeding ground of cancer, you should remember that since 25 per cent of all the diseases of the civilized world originate with its present faulty diet, that by vitamin starvation day by day, steadily weakens your natural disease-resisting power.

All purgative and laxative natural active irritants and are not only injurious and dangerous, but also, at best, only partially successful. Dr. Robert Bell, M.D., F.R.F.P.S., etc., the eminent English cancer authority, states the only safe remedy for constipation is the use of an enema, containing not less than one quart of plain water at blood heat, to insure the daily complete evacuation of the colon and prevent the blood absorption of poisons from the bowels. When your life is at stake, can you afford to neglect such a simple and inexpensive precaution?

The highly paid food chemists are responsible for mere deaths than were caused by the entire late war and by their poisonous food preservatives and scientific refinement of Nature's abundant provision continue to wage remorseless war upon helpless women and children who, besides their natural protectors, also become victims of the foodless food manufacturers.

For the preservation of your future health and that of your dear ones stop eating "improved" foods, tinned foods of any sort and the white bread and white flour products that kill 400,000 little children under ten years of age every year in the United States (Mc Cann). Insist upon whole wheat bread, plenty of fresh uncooked fruit and vegetables. If you must cook your vegetables, clean them only and then drink the water or use as a foundation for vegetable soup. You are entitled to enjoy every minute of your life from the cradle to the final rest, and if you have any doubt about what to eat in order to keep you in perfect health the writer will gladly send you freely your free dietary treatment. If you will write to Mr. Charles Walker 51 Brunswick Avenue, Toronto, Canada.

## Claims Cure For Deafness

California Man Cures Swift Descent In Airplane, Restored His Hearing

A trip to the clouds in a soaring airplane, and a sudden dip of several thousand feet, will cure deafness, if one does not die of heart failure. That was the declaration of Glenn Tundison, who claimed to have been wholly cured of deafness by two fast descents from dizzy heights. The first experiment relieved him greatly, while the second restored his hearing completely, he said. "It is the rapid change of air pressure," he declared, "that does it," declared Tundison.

**Pulp Mill For Manitoba**  
The Manitoba Pulp and Paper Company, Ltd., it is understood, shortly establish a plant at St. Boniface. The company has a capital of \$5,000,000, of which the cash outlay will be \$2,000,000 in immediate operations. It is projected to build a 200-ton newspaper mill, which will give employment when in operation, to about 700 men.

Zanzibar, an island off the east coast of Africa, was received by the British from Germany in exchange for Heligoland.

For Sore Feet—Minard's Liniment

## Deaf Educated At

Washington College

Only School Where Deaf Child With No Education Can Enter

The Columbia Institution of the Deaf, more commonly known as Gallaudet College, is described by its officials as the only school of its kind in the world which provides higher education for the deaf and the only institution in which a deaf child, with no formal education whatever, may enter and in the course of years be graduated with a well-rounded education and a collegiate degree.

The school was founded by Amos Kendall, a distinguished statesman of his time, who in 1860 donated a house and three acres of land from his estate, in Northwest Washington, and employed Edmund Miller Gallaudet, of Hartford, Conn., as principal. A year later an act of incorporation of the school was obtained from Congress through the efforts of Mr. Kendall and his friends, and from the beginning it was provided that the Government give financial assistance to the school.

President Lincoln, on April 8, 1864, signed an act giving the school the power to grant collegiate degrees. Since then some 1,400 students have been enrolled and more than 400 have received bachelor's degrees. The college department first was open only to young men, but since 1887 young women also have been admitted. The course is fixed at 180 years, the first preparatory year required to finish the preparation of students entering from schools for the deaf throughout the country. Admission to the college is by examination, and, as a rule, some 30 students are annually represented in the student body.

The young men maintain baseball, football and basketball teams, using hand signals, and are conspicuous figures in athletics throughout the middle Atlantic section. The college also has wrestling, tennis and track organizations.

Many of Gallaudet's graduates have become teachers of the deaf throughout the country, some even establishing schools in the southern and western states.

## Thousands in Wembley Pageant

Twenty-Five Thousand Wheat Sheaves From Canada Used

The opening of the British Empire Pageant in the Stadium at the British Empire Exhibition at Wembley, fixed for July 21, was postponed for a few days owing to insufficient rehearsal.

The pageant told the story of the British Empire in a series of dramatic episodes.

Fifteen thousand people took part in the spectacle. Its magnitude may be gauged by the fact that the following were among the requirements:

5,000 pigs;  
15,000 chickens, of which 25 miles of cloth were worn;  
10,000 square yards of canvas scenery.

Artificial lake containing 237,000 gallons of water.

Largest carpet in the world, covering half the Stadium.

Five miles of steel wire for alterations in the arena.

Two and a half tons of nails, 200 tons of timber.

Full-sized cathedral front.

Ships and boats, full size.

25,000 sheaves of wheat from Canada.

In one scene 1,000 white doves were employed.

The diergyman's cuckoo is a survival of the days when nearly all men were skinned.

## Cook with This Ware - It Uses Less Fuel

Save money by using SMP Enamelled Ware cooking vessels. They use less fuel. To satisfy yourself of this convincing test in your kitchen. Take an SMP Enamelled Sauce Pan and one of equal size made of aluminum, tin or other metal. Into each pour two quarts of cold water. Place each sauce pan over the fire. The water in the SMP Enamelled Sauce Pan will boil merrily when the water in the other is just beginning to simmer. Save your money. Use

## SMP Enamelled WARE

"A Face of Porcelain and a Heart of Steel"

Three Sinks: Enamel Ware, two coats of white enamel; Enamel Ware, two coats of white enamel; Enamel Ware, two coats of white enamel.

For Sore Feet—Minard's Liniment

## U. S. FLIERS ON LAST COURSE OF WORLD FLIGHT

Halifax, N.S.—Radio advices here August 21 announced the safe arrival at Greenhead of the American world encircling airmen, Lieutenants Smith and Nelson, ending their 92,500-mile hop from Iceland. The Italian flier, Lieut. Locatelli, was not mentioned. The time of arrival was given as 8:10, the two machines landing almost together.

Washington—Officials remained on duty at both the war and navy departments all night awaiting word from the American army world fliers, and as the time wore on, with no report being received, they prepared to continue their watch into the early hours of the morning.

Lack of any official message from the fliers was attributed to difficulties in communication such as frequent fog, which prevented the aviators from being located.

## Believes U.S. Must Recognize Soviets

Third Party Evidence of Changing Thought Says Rakovsky

Moscow.—Discussing the influence of the United States and the Anglo-Russian agreement embodying general and commercial treaties, Christian Rakovsky, the Russian Charge D'Affaires at London, who signed the treaties, said:

"America is at present the most conservative capitalist country. Under the mask of defending democratic principles, it protects the interests of the big American capitalists. America strives to place Europe under its economic guardianship, but Russia's social regime prevents for the United States capitalists the greatest obstacle in establishing their authority over the European and Asiatic continents."

In the opinion of M. Rakovsky, the United States will ultimately be compelled to recognize Soviet Russia, as he contends there are signs of change in the international life of the United States. "He after the appearance of the 'third party' as curbing the best proof that 'America has been forced out of the social equilibrium which hitherto has served as a guarantee of her conservatism.'"

## Ottawa Knows Nothing Of Wainwright Oil

If Big Strike Were Made Department Would Be Advised

Toronto.—A special dispatch from Ottawa says:

"The Interior Department has not received any word from its officials in the district, confirming the claim that British Petroleum have struck a 500-barrel oil well at Wainwright, Alberta, in addition to the one struck last fall."

"Inquiry at the mines, Northwest Territories, and Dominion Lands branches failed to elicit any basis for the report. If such a big strike were made it is assumed that the department would be advised. It is known, however, that the company is boring."

## Prince Heavy Prize Winner

Saskatchewan Farmer Ran Him Close Race in Several Classes

Victoria, B.C.—Taking 12 first prizes in all in the shortening classes, the Prince of Wales' entry from the E.P. Ranch was a heavy prize winner at the Victoria Fall Fair today.

George A. Arbuckle, of Lemberg, Sask., ran him a close race in several of the classes. The E.P. senior champion, Junior champion, and grand champion bulls won more blue ribbons. The Saskatchewan entry beat the E.P. entry in the two-year-old bulls.

## Canadian Song Writer Dies

Guelph, Ont.—A cablegram has been received here telling of the death in London, Eng., of Mrs. Laura Lemon Heath, who was accounted one of Canada's greatest song writers. As Laura Lemon, she wrote a number of patriotic numbers, but apart from these her best selection was "My Ain Folk."

Laura Lemon was the daughter of the late Andrew Lemon, Q.C., of Guelph and Winnipeg, and widow of William Heath, of Winnipeg.

## Oppose Continuing Exhibition

London.—It has been learned that replies have now been received from all the Dominions, except Newfoundland, unanimously opposing the suggested continuance of the Empire Exhibition at Wembley in 1925. Discontinuance was urged mainly on the ground of the expense incurred in maintaining staffs and renewing exhibits.

W. N. D. 1254

## No Demonstration As French Troops Depart

Ottobourg, Baden, Germany.—Popular rejoicing over the departure of the French occupational troops from here, Appenweier, and a number of neighboring villages, finds mute expression in the Liberal display of the German republican colors, which are flying from almost every house and public building in the places affected by the troop movement. The evacuation proceeded in an orderly fashion, the French avoiding every display of ostentation which might prove offensive to the German citizens who also refrained from demonstrations which might have nettled the departing forces. A large contingent of French civilians and their families followed in their wake.

## Prince Will Avoid Public Functions

Appreciated Privacy Attending Visit To Canada Last Year

London.—The Prince is anxious to reach his home as early as possible and his stay on Long Island, where he will witness the international polo matches between teams representing Great Britain and the United States, will positively be his only stop on his way to Alberta. What he may do on the return journey is as yet undecided, although it is certain he will avoid any public functions. Perhaps the Prince will stop over at Jasper Park, Alberta, and divide his time between his stay at his ranch he will likely spend a weekend at Banff.

The Canadian Press has authority for stating that the Prince of Wales and his suite appreciated and were extremely gratified by the privacy which attended the visit of His Royal Highness to Canada last year, and the Prince is looking forward to similar privacy on his forthcoming visit.

"The Prince's ranch is a real retreat for him, and everybody he met, both in the vicinity of the ranch and at Banff, were most kind and considerate of him," declared the authorities.

## Jewel Robbery in Boston

Loss in Daylight Theft From Diamond Merchants Is \$150,000

Boston.—Diamonds and jewelry valued at about \$150,000 were stolen by four men who held up the clerks in the store of Carl S. Sklamer, diamond merchant here. One man remained in the automobile, the other three covered the three clerks with revolvers, who the fourth picked up the jewelry cases which had just been removed from the safe.

The store had just opened for the day and no customers were present. The robbery was accomplished in less than five minutes. The robbers then jumped in their machine and drove off through the cross streets of the south end. A policeman who gave chase in an auto car lost them in the maze of streets.

## Trying To Blaze Trail To The Coast

Detroit Autists Piloting Car Across Prairies to Vancouver

Winnipeg.—A. F. Bement, Vice-President and Secretary of the Lincoln Highway Association, and H. E. Evans, both of Detroit, are seeking the honor of being the first tourists to pilot an automobile across the prairies to the Pacific coast.

If successful in their undertaking the trail blazers will be rewarded with a gold medal offered by the Canadian Highway Association. This prize has been waiting to be claimed for several years, and although several attempts have been made to negotiate the distance, none have been successful to date.

## Subduing Scarlet Fever

St. John, N.B.—The opinion that within one year an anti-toxin for scarlet fever would be perfected and standardized, and that that disease would be as subject to control as typhoid fever, was submitted by Dr. H. B. Cushing, of Montreal, before the New Brunswick Medical Society here.

## Quake Kills Forty One

London.—An earthquake near Osh, in the province of Semirechensk, Russian Turkistan, has caused the death of 41 persons in three villages and rendered 4,000 homeless, says a dispatch from Allahabad, India. More than 4,000 houses were destroyed.

## B.C. Forest Fire Damage

Prince Rupert, B.C.—Forest fires have burned over three square miles near Alton Arm, destroying one of the largest stands of timber in the district. The outbreak was reported under control. Every available man had been fighting the blaze for several days.

## Gave Interesting Address

PROF. R. M. McIVER of the University of Toronto, who delivered an interesting address on civilization and population at the British Association convention.

## SNOWDEN WARNS BRITAIN AGAINST TRADE MENACE

London.—While the echoes of the applause raised by the successful conclusion of the London conference on the experts' reparations plan still reverberate throughout Europe, the stage is being set for a shalshaf episode, with Great Britain and France taking their old roles of economic rivals, fighting for commercial ascendancy.

If any doubt remained as to Great Britain's policy regarding the Ruhr, it faded when the Manchester Guardian published an interview with Philip Snowden, Chancellor of the Exchequer, not only backing Mr. MacDonald in his protest over the prolongation of the French military venture in the Ruhr, but protesting against the proposed new commercial agreement between Germany and France. He warns British industrialists that France has designs upon the economic control of certain German industries, using political means to attain this object.

The proposed commercial agreement, Mr. Snowden declares, is one method by which the French industrialists, aided and abetted by their politicians, intend to advance their project.

"I warn British commercial interests, especially the textile and iron trades, to be alert in this matter," says Mr. Snowden. The draft of the commercial agreement shows that to Great Britain this is a trade menace of the most serious character.

## No Decision About Postal Strikers

Montreal.—No announcement will be made until September 1 of the post office department decision regarding complete re-establishment of postal employees who went on strike and payment to them of the balance of the pay over and above the \$45 on which they received their pay from Deputy Postmaster-General Gauthier, who arrived in Montreal August 21.

## Perilous Trans-Atlantic Voyage

New York.—With Gibraltar as his destination, Dimitrios Sigelakis, a Cretan seaman, has embarked upon a perilous trans-Atlantic voyage in a 22-foot sail boat. His only motive in making his trip is to experience the thrill of achievement, he said.

## ALL ON THEIR OWN TO CANADA

These three little children, named George Reid (9), William Reid (7) and Nan Reid (5), travelled from Glasgow to Canada on their own on the Canadian Pacific liner "Marjorie." They hailed from Greenock and joined their daddy in Quebec.

## Africa Will Not Exhibit Next Year

London.—Commenting on a report from Cape Town that the Government of South Africa had decided not to continue its exhibit at Wembley next year, if the British Empire Exhibition is open again in 1925, a South African authority in London says this is probably due to the fact that the South African Government is hard up and cannot afford to spend the money that would be required for a second year of the exhibition, South Africa not being in as good financial position as either Canada or Australia.

## Manufacturers Now Appeal To Board

Ack For Removal of Discrimination Due to Crow's Nest Rates

Toronto.—Application will be made by the Canadian Manufacturers' Association to the Board of Railway Commissioners for the removal of the undue discrimination which, it is claimed, is created by the establishment of reduced rates between certain points by the Canadian Pacific Railway and the Canadian National Railway.

The rate complained of became effective on July 7, when legislation authorizing the Board of Railway Commissioners to increase rates above the maximum set by the Crow's Nest Pass Act expired. Tariffs were issued by the C.P.R. and C.N.R. at the same time, applying the new rates, however, only from those points which were common to the C.P.R. and C.N.R. as published in the C.P.R. tariff. The situation created by the new tariffs, it is stated, has caused numerous complaints from all parts of Canada against the disturbances and discriminations of rate adjustments which will work considerable hardships against both shippers and receivers.

## Had Subterranean Farm

Montreal Signor Kept Pigs, Goats and Chickens in His Cellar

Montreal.—Signor Giuseppe Mauro, Neapolitan landlord of an east end house in this city, is also the proprietor of a unique subterranean farm. Inventory of the furred and feathered inhabitants of the farmyard taken by Fire Commissioner Ritchie revealed the fact that the original population comprised three pigs, two goats, about forty chickens, all of which were housed in the cellar by a large barrel, a pile of coal and a stack of wood.

Over the farmyard live Giuseppe and his family, his wife and their nine children; the husband of one of the girls and a newly arrived granddaughter.

These details were obtained at the enquiry into the fire which broke out in the Mauro household on August 16. The only casualties in the blaze were two goats, which succumbed to smoke.

## Mars Under Observation

Washington.—Rheos and Demos, satellites of the planet Mars will be under observation by the naval observatory here during the present month, when Mars will be closer to the earth than it has been for several years.

## British Warships Reach Port Sudan

Khartoum, Egypt.—Several British warships have arrived at Port Sudan to aid the troops there in maintaining order.

Martial law is in effect following further disturbances in the district.

## Hudson's Bay Ship Safe

Caught in Arctic Ice Pack Is Drifting Toward Northwest

Ottawa.—Failure of the Hudson's Bay ship, Lady Kindersley, to get through to Herschel Island will necessitate postponement of the establishment of a radio station there.

An officer and two men of the Department of National Defence are at present stationed on Herschel Island and the schooner carries supplies and equipment for the creation of a radio station there, which will be one of a chain of stations proposed in Northern Canada for military and commercial purposes. Even if the Lady Kindersley succeeded in reaching the island shortly, it would be too late in the season to commence construction.

Besides carrying supplies for Herschel Island, the Lady Kindersley carries food supplies and equipment for the Mounted Police posts and settlements at the mouth of the Mackenzie River. It is expected that when clear of the ice the boat will proceed to these posts with the supplies.

The men station on Herschel Island, it is stated, will not return with the boat, but will come out overland when winter sets in.

Vancouver.—The Lady Kindersley, believed to have been abandoned in the Arctic Ocean, is still safe and sound, though caught in an ice-pack, and, with her crew on board, is drifting toward the northwest and possible escape from the ice, according to a wireless message received from the ship by C. H. French, district manager for the Hudson's Bay Company.

## To Consult Premiers About H.B. Road Plan

Delegation Will Get Opinion on West Finishing Railway

Winnipeg.—A suggestion made some time ago by a former member of the Federal Cabinet that the Governments of the prairie provinces should take over and operate the Hudson's Bay Railway, has been discussed with Premier Bracken, of Manitoba, and members of his cabinet by a delegation from the "On-to-the-Bay" Association, but no definite plan was decided upon. The plan would have to be acceptable to both the Federal and Provincial Governments, and it is stated that the views of the Saskatchewan and Alberta Premiers will be sought shortly. A delegation from the association's executive will interview the western premiers on the subject.

## GERMANY MAY PLACE A HEAVY TAX ON WHEAT

Winnipeg.—A report was received from Europe by the export branch of the Winnipeg grain trade, and corroborated in other official quarters, that the German Government had expressed its intention of introducing in the Reichstag a bill providing for the placing of a heavy import duty on wheat and flour.

The particulars received indicate that the duty to be imposed would be equivalent to 35 cents a bushel on wheat and 50 cents per barrel on flour.

Germany, it is learned, has a very excellent potato crop this year, and the purpose of the import duty on wheat and flour is to make the people consume potatoes and potato flour, and other home products, as they were compelled to do during the war years. Further, it is explained that action has been taken to cut down the importation of foreign foodstuffs to the minimum, and at the same time, give encouragement to their own farmers in an effort to increase acreage and production.

A New York exporter, when queried respecting this new development in the bread grain situation of the world, stated that it would undoubtedly have a bearish effect on prices. The impact, he declared, would in all probability cut down Germany's importations by from fifty to seventy-five million bushels during the next 12 months.

## Will Have Third Trial

Rev. Adelaar Delorme to Appear at September Sessions

Montreal.—According to La Presse, French language newspaper of this city, Rev. Adelaar Delorme, twofold for the alleged murder of his half-brother, Raoul, will come up for his third trial at the September sessions of the Court of King's Bench here. The paper says that R. L. Caldes, K.C., crown prosecutor, affirms this, and that the presiding judge at the trial will be Mr. Justice Denery, of the Superior Court. It adds that Delorme will be tried again in spite of the fact that he has recently been examined by a physician. The King's Bench will open September 10.

## PARIS SESSION WAS SUSPENDED BY COMMUNISTS

Paris.—The Dawes reparations plan and the steps taken at the London conference to make it effective were overshadowed by violent Communist demonstrations in the Chamber of Deputies when Premier Herriot brought the Chamber and Senate, read a long declaration embodying the government's case and asked the approval of the legislature.

The Communists monopolized the debate and manoeuvred in such a fashion that the entire afternoon was devoted to their motion for an adjournment until the Senate votes the Amnesty Bill.

Not a word about discussion of the London Dawes conference was heard. The Premier was spared much of this violence during the hour it took to read his statement, but before and after his address the chamber was a mad-house and the session had to be suspended in order to restore quiet.

The Premier was applauded when he said he could not refuse to discuss a plan which was based on co-operation and when he emphasized the importance of arbitration, he was interrupted by the Communists, who cried: "Down with war!" and "Long live peace!" These interruptions were frequent but the Premier's supporters gave him rousing cheers when he told the method which had been adopted for determining when Germany was in default of the method, he said, was entirely in accordance with the Treaty of Versailles.

## Government Stores Not Money Makers

Revenue From Hard Liquor Sales in Alberta Light, Says Official

Edmonton.—Alberta's premier beer to the hard stuff, according to an official admission from Chief Liquor Commissioner R. G. Dinning, the breweries and the hotels, selling beer by the glass under the Alberta law, are not the money makers, while the government liquor stores are cutting their staffs because business is so poor.

With the first three months of government sale and control of liquor completed, the officials in charge of the sale of hard liquor have brought home to them the realization that the government store for the sale of hard liquor are not to be the money makers, that some believed they would be. In fact, to those who thought that liquor profits would be enormous, the decision of taxation, the disappointment will be keen, if the financial records of the first three months are any criterion of what the year's profits will be.

Commissioner Dinning admits that the business in the government stores was very small after the first few weeks, when the novelty of the new experience had worn off.

"We have reduced the staffs of the stores," he said, "but the report that any of the stores are to be closed is the near future is not correct."

## British Government Assumes All Cost

Salings of Settlers Under New Agreement Begins Next Month

Ottawa.—The settlement in Canada of 3,000 British families to be selected by the Dominion is provided for in a new immigration agreement which has been concluded between Hon. James A. Robb, minister of immigration, and the British government. Under the agreement the British government provides all money for equipment and sailing, which will total between four and a half and five million dollars, the settlers to repay the amount expended over a period of 25 years.

The function of the Immigration Department of Canada consists in directing the settling of these immigrants when they arrive in the Dominion and assisting them, through the services of the field staff of the department. The settlers will be given choice of land in any province they select, but it is assumed that the majority will choose to settle in the northwest. Administration of the scheme over here will be in the hands of the Immigration Department.

Salings of the immigrants under the new agreement, which is regarded as an excellent one here, will begin some time next month.

## Crops Damaged by Sawfly

Saskatchewan, where 6 to 10 per cent, to wheat on the University of Saskatchewan farm has been caused by the saw fly, Professor Manly Champin states, and reports of quite serious damage throughout the Saskatchewan district will be received here.

Professor Champin advised that what before it is quite ripe to stop the ravages of the pest.

## Local and General Items

A successful dance was held in the Union Hall at Frank on Monday night.

Misses Douglas, Keith, Fulton, Rae and Gailly have taken up residence at the Greenhill hotel.

Rev. P. J. N. Cosman and Dr. Hynes motored to Lethbridge on Tuesday, returning next day.

A whist drive will be held in the Lodge Hall on Wednesday night next, September 3rd, under the auspices of Vimy Chapter, O. E. S.

It's not saying much for our modern civilization when we notice a social event being guarded by armed police.

Mrs. D. A. Howe left on Monday night for her home in Crowfield, Suffolk, England, where she expects to spend several months.

Thomas Longworth, district license inspector under the new Alberta Liquor Control Act, was a visitor to this district on Monday of this week.

We omitted the name of Miss C. Marquis in the list of fall-term teachers in our last issue. Miss Marquis is back on the job.

Miss Alice Carter, of the Union Bayk staff, spent a few days' vacation with Misses Gibeau and Flinn at Proctor, returning to town on Sunday night.

New Annon note in Truro Weekly News: "Mr. and Mrs. George Oliver and Mrs. Edward Byers left for Blairmore, Alberta, on the excursion train on August 15th."

R. H. McKay, of New Glasgow, Nova Scotia, has been appointed to the board of directors of the Canadian National Railways, in place of the late J. H. Sinclair.

The purchase by a young man during the past few days of several pieces of new furniture causes us to expect early ringing of wedding bells. Congratulations will be in order before September 30th.

Twenty years ago Sunday, August 20th, the first baptism in Nanton was administered by Rev. J. F. Hunter, at the old Mosquito Creek ford near the lower bridge, when J. C. Colwell became a member of the Baptist church.

A grand Snowball Dance will be given in the school house at Burnis on the night of Friday, September 5, in honor of successful pupils in the recent examinations. Prof. Royle's orchestra will furnish music. A good time is promised.

Bass River note in Truro Weekly News: "Mrs. Freeman Lank and little son, Willard, accompanied by Miss Minnetta Crowe, left on the 15th for the Canadian west. Mrs. Lank will visit with relatives before she returns. Miss Crowe will teach."

There are no less than two million laws in force in the United States. If a man could familiarize himself with ten of them each day, he would be qualified to act as a law-abiding citizen in the short space of six thousand years. And yet they claim that ignorance of the laws of the land is no excuse for an unfortunate and innocent offender.

Mr. W. Jordan, of Calgary, was the guest of Rev. Father Cosman last week.

The smaller the town the greater conviction that every thirsty dog is mad.

Mrs. Fred Thael and Baby Thael, of Lethbridge, spent a few days with Mrs. Knapman here.

Mrs. D. Walker and children returned Thursday last from the South Fork, where they had been holidaying with Mrs. W. T. Young.

Last year, the output of the Crows' Nest Pass Coal Company from Coal Creek and Michel amounted to, coal 775,386 tons, coke 65,990 tons.

The Campbell Floral, Seeds and Nurseries, Limited, has been incorporated with a capitalization of \$125,000 and head office in Calgary.

Rev. Father Lynott, of Oyen, who spent the week with Rev. Father Cosman, sang the High Mass and preached at St. Anne's church last Sunday.

The money received by the liquidators of the Home Bank in settlement of the double liability claim on the shareholders now amounts to \$450,000.

The dining room of the Alberta Hotel here was opened last week and is being very well patronized. Already there have been over thirty steady mealters, while most of them are also rooming in the house.

A little boy of six was killed by being hit by an auto, on a Truro street, while rolling a hoop. This is an exceedingly dangerous sport that is practiced considerably in Blairmore and kiddies should be warned.

The Coleman Hotel, now being operated by Mr. Farley, is receiving a coat of stucco and other exterior renovation and when completed will be quite attractive. We understand that in future this hotel is to be known as the Queen's.

More than 400 miles of new roads are now under construction in the province under the direction of the Provincial Public Works Department. Several contracts have recently been awarded for roadwork in various parts of the province.

Misses May and Margaret Flinn, Miss F. Gibeau and Mrs. H. Gibeau returned last week end from Proctor, B.C., where they had been enjoying the summer vacation. The Misses Flinn continued on to Lethbridge.

Rev. Dr. C. C. McLaurin and wife have left Alberta for Ontario, where they will in future reside. Alberta generally regrets the departure of Dr. McLaurin, who as superintendent of Baptist missions for a number of years has become very popular and is held in the highest esteem. Rev. Dr. Litch, of Vancouver, is spoken of as likely successor to Dr. McLaurin.

**TUESDAY NEXT A SCHOOL HOLIDAY**

## To Our Patrons

AFTER making a careful study of business conditions in Alberta, we have decided to make some changes in our business methods throughout the province of which we hope will be beneficial to our many customers as well as to ourselves.

### ON AND AFTER SEPTEMBER 1st 1924

All Discounts—Pay Day Candy, Etc.—which add considerably to the cost of doing business, will be discontinued and

### ALL GOODS WILL BE SOLD ON A NET BASIS AT THE LOWEST PRICES

We will still continue to do a CREDIT BUSINESS, but in future all accounts will be limited to 15 and 30 days respectively.

Under the above conditions we believe that the cost of living in Blairmore can be reduced materially and at the same time put our business on a more sound and satisfactory footing.
